Funding for Children and Young People

This document is a collection of potential funding opportunities for those organisations involved with Children's and Young People.

The text on each potential funding body is compiled from extracts from their respective websites at the date stated in the document’s filename.

Some of the funding opportunities listed below were closed at the date of the searches. If they are closed permanently then they have been omitted, but those that are likely to re-open later in the year have been included.

This document is not meant to be exhaustive, nor complete. It is a snapshot of the most relevant funding opportunities at that particular time.

Awards for All
http://www.biglotteryfund.org.uk/global-content/programmes/england/awards-for-all-england

Awards for All offers grants of between £300 and £10,000 for grassroots and community activity that aims to improve life for local people and neighbourhoods. It doesn't have a deadline and you can apply at any time.

It is their most popular grants programme so they will prioritise groups with smaller incomes. Due to high demand on the programme, organisations that have a large annual income may not be able to get funding through Awards for All.

They recommend you send them your application at least four months before you want your project to start. You must use the grant within one year.

You can apply to Awards for All England if you are a community or not-for-profit group, parish or town council, health body, or school. You do not need to be a registered charity to apply.

They want to fund projects which address the issues, needs and aspirations of local communities and people. They will fund a wide range of community projects aimed at developing skills, improving health, revitalising the local environment and enabling people to become more active citizens.

They will pay for activities that will benefit the community, including:
- putting on an event, activity or performance
- buying new equipment or materials
- running training courses
- setting up a pilot project or starting up a new group
- carrying out special repairs or conservation work
- paying expenses for volunteers, costs for sessional workers or professional fees
- transport costs.

Until March 2009 the Lottery ran Awards for All with other organisations which distribute Lottery funds. There are now separate programmes for arts, sport and heritage projects delivered by the Arts Council, Sport England and Heritage Fund respectively. This change means that Awards for All will not fund applications where the main purpose of the project falls within the scope of the programmes run by the other lottery distributors. Awards for All will only pay for projects related to the arts, sports or heritage activities where the main purpose of the project meets one or more of the outcomes on page 12 of their guide which are about improving communities, skills, health or the environment. You must be able to evidence a community need that’s not about developing the capacity for arts, sports or heritage activities in the area, but is about addressing the particular issues the beneficiaries are experiencing.
Discovery Foundation
http://www.santanderfoundation.org.uk/discovery-grants.aspx

Discovery Grants of up to £5,000 are available to fund an activity which supports one or more of their three priority themes:

- **Explorer - improving knowledge and insight**
  Examples include a series of Money Management workshops to help people understand how to budget and identify the affordable credit choices available to them. A Freedom Training course giving abused women knowledge of how to regain control over their lives.

- **Transformer - developing skills and experience**
  Examples include work-based training and mentors to help socially isolated people develop skills to get back into work. Sign language training for parents with hearing impaired children. Or teaching young people with autism vocational skills.

- **Changemaker - innovative solutions to social challenges**
  Examples include a new social networking program for visually impaired young people which uses specially developed braille laptops to access the internet. An inclusive cycling social enterprise which adapts bicycles to enable people with disabilities to enjoy the outdoors.

Grants must directly benefit disadvantaged people in the UK and must be for something that is wholly charitable. Their funding is aimed at small local charities. Funding is available for specific projects and can cover salaries, equipment or materials for the project. Funding is only for one year and must deliver a local project, not a national initiative. They aim to fund a complete item and cannot fund general running costs.

Clore Duffield Foundation
http://www.cloreduffield.org.uk/

The Foundation is a grant-making charity which supports cultural learning, the creation of learning spaces within arts and heritage organisations, leadership training, and enhancing Jewish life.

Whilst the Foundation does occasionally make donations to the health and social care sectors, it should be noted that the majority of its support is directed towards the cultural sector, and in particular to cultural learning and to museum, gallery, heritage and performing arts learning spaces.

Applications are reviewed and rejected on an ongoing basis, although all successful grants can only be awarded at meetings of the Trustees. These are held twice a year, usually in June and December. Grants range from £10,000 to in excess of £1m, although larger grants are made infrequently. The majority of expenditure is for capital projects – only a small number of grants are made each year for programme funding.

The Clore Poetry & Literature Awards fund poetry and literature initiatives for children and young people, under the age of 19, across the UK. Individual Awards range from £1,000 to £10,000.

The Clore Duffield Foundation has created these Awards with the aim of providing children and young people with opportunities to experience poetry and literature in exciting and compelling ways, in and out of school.

Please note that the application form is not available at this time, as Round 8 of the awards has now closed. Please keep an eye on our website to check for an announcement of any future rounds.

Hedley Foundation
http://www.hedleyfoundation.org.uk/
The Hedley Foundation supports young people, the disabled and the terminally ill. The Hedley Foundation’s principal aim is ‘to effect change for the better in the lives of young people’.

Last year the Foundation received 1,050 applications, of which less than two-thirds were within their criteria. They made 327 grants (averaging £3,000). The Trustees meet six times a year.

The Foundation makes grants to small charities working with young people in the areas of Recreation, Sport, Training, Health and Welfare, Support and outdoor Education of young people between the ages of 11 and 25. The Foundation is particularly keen on open air and adventure-type activities and the funding of appropriate kit and equipment.

The Foundation is keen to support small charities which can demonstrate achievement in persuading and deterring at-risk young people from proceeding further down the pathway to custody.

A secondary aim is to assist small charities helping with disabled and terminally ill young people through funding for specialist equipment, organised respite breaks and holidays.

The Foundation also supports young carers.

The Foundation provides limited bursary type funding to organisations which provide apprenticeships and specialist training for talented young people who, for want of money alone, are unable to develop their talents.

The Foundation will only make grants to UK Registered Charities.

Grants cannot be made direct to individuals and the Foundation is unable to assist:

- Churches, Cathedrals and Museums. Exclusive charities (which only help people from specific groupings).
- Appeals for general funding, salary, deficit, core revenue or transport funding.
- Appeals for building works or refurbishment projects.

DM Thomas Foundation for Young People
https://dmthomasfoundation.org/

Applications working in the areas of education or health with one of their four chosen focus groups are selected or considered:

- Children and young people with disabilities
- Children and young people who are sick in hospital
- Young people who are homeless
- Young people and children who are life limited (requiring palliative care)

If favoured, grant applications for up to £5,000 can be approved by the Director, up to £10,000 can be approved by the Grants Committee, and applications for more than £10,000 are recommended to the Trustees for final approval. The Foundation is a small charity and generally will not make awards of over £30,000 (per year). Funding can be requested for up to 2 years for any particular project.

The Foundation makes grants to charities that meet one of their two chosen areas of focus which are:

1. Improving the education of young people
   The Foundation is investing in the future by supporting young people in the vital areas of education, awareness and training. Through targeted grant giving the Foundation aims to facilitate a better future for young people by supporting local charities. Education funding generally will be given for training/re-training, educational equipment, activity-based learning leading to accreditation and sports equipment.

2. Improving the health of young people
The Foundation is committed to relieving suffering and supporting young people whilst they are undergoing treatment and care. Health funding generally will be given for medical equipment, care facilities, activity based holidays, proactive health awareness campaigns and hospices.

Princes Trust  
https://www.princes-trust.org.uk/

Their awards remove the financial barriers preventing you from taking the next step into work, education or training.

Their Development Awards can help to cover costs such as: course fees, transport or equipment to help you achieve your plan to get into education, training or employment.

You may be eligible if you are a UK resident and are:

- Aged 14-17, and do not have/are not expecting to achieve 5 GCSEs grades A-C (or equivalent), or
- Aged 17-25 and unemployed or working fewer than 16 hours a week, or in education fewer than 14 hours a week

Development Awards can be used to help fund:

- Tools or equipment for a job or qualification e.g. hairdressing kit, carpentry tools, chef whites
- Course fees
- Interview clothes
- License fees e.g. CSCS card (construction) or SIA license (security)
- Childcare costs to help single parents access short term education
- Transport to a new job until first pay cheque

Development Awards can’t be used to fund:

- Costs over £500
- Living expenses e.g. rent or bills
- Costs for things that have already been paid for
- Gap year or overseas projects
- Community projects
- Medical treatment
- Fees for courses higher than Level 3, e.g. NVQ Level 4, HNC, HND, Degree or post-grad courses

Happy Days Childrens Charity  
http://www.happydayscharity.org/

Since 1992, Happy Days Children's Charity has helped over 200,000 courageous kids with magical experiences and respite breaks, bringing happiness and hope to them and their families.

Last year, we helped over 23,000 children with life-limiting illnesses, mental and physical disabilities and those who had suffered abuse and neglect. We also helped children who had lost a parent or sibling, as well as young carers supporting their families.

They arrange respite breaks, residential trips, memorable days out and experiences that are a
vital support to many young people in schools, hospitals and hospices, as well as local charities and community groups such as women's refuges.

**Day trips/theatre trips/visiting theatre performances**

You can apply to them for a day trip to a wide variety of destinations, for example, the seaside, a theme park or the theatre. You may also apply for a visiting theatre performance to visit your premises.

You must represent a group of young people aged 3-17 with special needs. You may apply if you represent a special needs school or special needs group.

**Family Respite Breaks**

You can apply to them for a family respite break if you have a child or children with special needs. These are short breaks by the seaside or in the countryside, usually in the UK. Your child or children should be between the ages of 3-17 and have special needs.

They will accept an application for a family respite breaks from parents, guardians, grandparents, or siblings. They will also accept applications from GPs, consultants, nurses or social workers.

**Group Activity Holidays**

You can apply to them for a group activity holiday to a wide variety of destinations such as outdoor activity centres, holiday camps and sailing breaks.

You should represent a group of young people aged 3-17 with additional needs. Examples of organisations we have supported in the past include SEN schools and groups, young carers and women's refuges.

All key carers who will be accompanying children on the trip must be DBS cleared. You must also have a child protection policy in place.

**BBC Children in Need**

[http://www.bbc.co.uk/programmes/articles/60DXIxYvbtcTDm79Mjryj/main-grants-should-i-apply](http://www.bbc.co.uk/programmes/articles/60DXIxYvbtcTDm79Mjryj/main-grants-should-i-apply)

Their Main Grants programme is open to charities and not-for-profit organisations applying for grants over £10,000 per year for up to three years.

If you are looking for any amount up to £10,000 for one year, see their Small Grants scheme.

They give grants for:

Children and young people of 18 years and under experiencing disadvantage through:

1. Illness, distress, abuse or neglect
2. Any kind of disability
3. Behavioural or psychological difficulties
4. Living in poverty or situations of deprivation

Projects they fund make differences in children's lives that help prevent or overcome the effects of the disadvantages they face. Projects achieve these differences by either working directly with children or seeking to improve their social and physical environments.

**Foyle Foundation**

[http://www.foylefoundation.org.uk/small-grants-scheme/](http://www.foylefoundation.org.uk/small-grants-scheme/)

Their Small Grants Scheme is designed to support smaller charities in the UK, especially those working at grass roots and local community level, in any field, across a wide range of activities.
Applications are welcomed from charities that have an annual turnover of less than £100,000 per annum. Larger or national charities will normally not be considered under this scheme. Nor will the Scheme generally support charities that are able consistently to generate operational surpluses or which have been able to build up considerable unrestricted reserves.

They plan to make one year grants of between £1,000 and £10,000 to charities which can demonstrate that such a grant will make a significant difference to their work.

**Main Grants Scheme - Learning**

The Foundation will support projects which facilitate the acquisition of knowledge and which have a long-term strategic impact. Key areas for support are:

- libraries, museums and archives;
- special educational needs;
- projects that encourage sustainability by reducing overheads or which help generate additional revenue.

For state funded schools their main initiative will be the Foyle School Libraries Scheme. Dedicated schools catering for those with Special Educational Needs (SEN) may also be supported. Independent schools will not generally be supported.

Citizenship, esteem-building, training, skills acquisition to aid employment, independent living, early learning projects or playgroups will not generally be considered under the Main Grants Scheme.

A table of previously funded projects is at: [http://www.foylefoundation.org.uk/small-grants-scheme/grants.php?Id=43](http://www.foylefoundation.org.uk/small-grants-scheme/grants.php?Id=43)

**Main Grants Scheme – Arts**

The Foundation seeks applications that make a strong artistic case for support in either the performing or visual arts. Our Arts programme has a twofold purpose to help sustain the arts and to support projects that particularly help to deliver artistic vision. We look for value for money, long term benefit and sustainability in projects that we support. Typical areas of support include:

- helping to make the arts more accessible by developing new audiences, supporting tours, festivals and arts educational projects;
- encouraging new work and supporting young and emerging artists;
- building projects that improve or re-equip existing arts venues (rather than construction of new facilities, although this will not be excluded);
- projects that encourage sustainability by reducing overheads or which help generate additional revenue.

Generally, they make grants for specific projects/activities. They will consider applications for core funding (but generally only from smaller organisations or from those not receiving recurrent revenue funding from the Arts Council or local authorities).

Please note that community arts activity will not generally be supported.

**Paul Hamlyn Foundation**

Paul Hamlyn Foundation's mission is to help people overcome disadvantage and lack of opportunity, so that they can realise their potential and enjoy fulfilling and creative lives.

They have a particular interest in supporting young people and a strong belief in the importance of the arts.
Education & learning through the arts
They want to improve people's education and learning through the arts
The arts play an important role in enriching young people's learning and educational experiences. Learning through the arts can engage and inspire young people, support key educational outcomes and develop skills that prepare young people for life beyond school. For many young people, particularly those experiencing the most disadvantage, the only opportunity to gain access to arts education is at school.

Investing in young people
They want to support the development and growth of organisations investing in young people and positive change
Much of their work aims to benefit young people but it is those who work directly with them who often make a difference to their lives, especially if they are vulnerable or face complex transitions to adulthood. They want to help organisations at different stages of development to improve, consolidate and spread those good practices which are endeavouring to make young lives better.

Youth Fund
Between £10,000 and £60,000
The Youth Fund supports organisations whose main purpose is about helping young people (aged 14-25) in the most precarious positions, where making the transition to adult independence is most challenging. The Fund supports organisations which work with young people experiencing disadvantage in a way that recognises and builds on their strengths and potential – they refer to this as an asset-based approach. Such approaches can include ‘strengths-based’, ‘advantaged thinking’, or ‘asset-based community development’ practices.

Organisations may be planning to grow their impact by:
- Replicating a programme or service
- Widening the reach of an idea or innovation
- Spreading a technology or skill
- Advancing policy or enhancing its implementation
- Influencing attitudes

The Fund will provide core funding to organisations within the youth sector and outside. This is a direct response to what we heard in our strategy consultation – that, in order to achieve greatest positive impact in the lives of young people, organisations need to achieve a balance of stability, continuity and flexibility.

Applicants may also be interested in the Ideas and Pioneers Fund, which offers grants of £10,000 to support individuals and organisations that have unusual or radical ideas to improve the life chances and opportunities of people in the UK.

Foresters Fund For Children
http://www.fffc.org.uk/

FFFC assists charities and organisations in the UK and Ireland that promote a better quality of life for children, their protection, care and well-being. For many years FFFC has issued cash grants for them to purchase essential equipment, or goods and services they need.

Their brief is to help fill the funding gaps for those small and/or volunteer children's groups who have difficulties in raising money from the usual sources, and whose activities they, as trustees, believe to be essential towards the aim of helping children in your local communities to lead healthy and fulfilling lives.

The FFFC converts the funds it has gathered through sponsorship or donations etc., into grants which are determined and issued quarterly (usually in January, April, July, and September of each year). These small grants, (as funds allow), are awarded to those groups
or charities who, in the view of the Trustees, are helping children in their community to achieve their best potential through counselling, healthcare, sport, social skilling or through other activities, or by providing equipment which will be of positive benefit to the children.

FFFC will consider applications from groups or charities who deal with the best interests of children in its many forms. The general rules we apply for consideration of applications are:

- At least 10 children will be helped by the issue of a grant.
- The applying group or charity is currently financially viable, or, if a new group or charity is being set up with the help of a grant, that their prospects for long term viability is good.
- That the applicant group or charity has its own bank account and good accountancy practice.
- That the applicant group is all-inclusive as far as race, religion and disablement are concerned.

Field Studies Council

The Kids Fund is part of the Field Studies Council (FSC). FSC, is the only environmental education charity dedicated solely to providing informative and enjoyable opportunities for people of all ages and abilities to discover, explore, be inspired by, and understand the natural environment.

The Kids Fund aims to:
- bring environmental understanding to disadvantaged young people by attending a course at an FSC learning location.
- help disadvantaged young people to attend a course who may otherwise be excluded due to some form of disadvantage - health, mobility, deprivation or financial.

Groups who meet one of the following criteria will be eligible:
- Disadvantaged young people aged 4-18 years (or up to 25 years for those with special needs).
- Voluntary youth groups (either run by voluntary leaders, managed by a voluntary organisation, a registered charity)
- School groups may apply if they are aiming to provide benefits which are additional to the statutory school curriculum or clearly show added value, depth and breadth to the taught curriculum. FSC Kids Fund will not pay for young people to attend standard curriculum-focused FSC courses.

FSC Kids Fund will pay for up to 80% of the course fee for groups of disadvantaged young people to attend a non-curriculum day or residential course at an FSC Learning Location.

The course content will be discussed with the group and the learning location. Course content could include:

- Hands on investigation of life in ponds and rivers
- Catching small mammals like woodmice or shrews
- Nightwalks and use of bat detectors
- Challenge activities such as low ropes courses, natural wall climbing or raft building
- Fun activities with an environmental theme to build teamwork
- Campfires and BBQs

There are three funding rounds each year which close on 1st March, 1st June and 1st November.

Ironmongers’ Company
http://www.ironmongers.org/charity_organisations.htm
The Ironmongers’ Company supports projects that provide opportunities for disadvantaged children and young people to fulfil their potential.

Grants are only given to registered charities. Projects must meet all of the following criteria:
- For children and young people under the age of 25 who are disadvantaged
- Consist of educational activities that develop learning, motivation and skills
- Have clear aims and objectives to be met within a planned timescale

The Company is particularly interested in enabling primary age children to develop a strong foundation for the future. Projects could, for example, support special educational needs, address behavioural problems or promote citizenship, parenting or life skills. Preference will be given to projects piloting new approaches where the outcomes will be disseminated to a wider audience.

Grants range from a few hundred pounds up to around £10,000. The average grant awarded is £4,000.

**Hilden Charitable Fund Summer Play Schemes**

The Fund has allocated a small budget to help community groups run summer play schemes for disadvantaged communities. Some priority will be given to projects which show they are inclusive of children from refugee families, and show BME involvement.

Trustees look to fund:
- Projects for children aged 5 to 18 years
- Locally based schemes lasting from 2 to 6 weeks
- Schemes with strong volunteer support

Applications are accepted from voluntary agencies with an income of less than £150,000. Trustees will not support:
- Play schemes with a budget of over £12,000
- Club or family holidays
- Day care costs
- Agencies with an income of over £150,000.

**Henry Smith Charity: Holiday Grants for Children**

The purpose of the Holiday Grants programme is to provide access to recreational trips or holidays for groups of children who experience disadvantage or who have disabilities. In particular they are interested in contributing to trips that would not take place without our funding.

Schools, youth groups, not for profit organisations and charities are all eligible to apply.

Applications can be made for grants towards a single trip, which could be a day trip or a longer residential of up to seven days in length. This could be to a countryside or city location but must be outside of the children’s immediate locality. Examples include camping, trips to adventure activity centres or the seaside.

If you are planning a day trip please ensure it does not involve a disproportionate amount of time spent travelling.

Grants are only available to support children who are aged 13 and under.
It is very important to them that their funds are targeted at children experiencing disadvantage. By this, they mean those who are located in an area of high deprivation, according to the National Indices of Deprivation. In particular they are interested in funding trips for children in geographical areas that fall within the bottom 20% of these indices. They are also interested in assisting those children who do not have any contributions towards the costs of the trip from their parent/s or carer/s.

Please note that sometimes they do consider applications for groups of children living in deprived circumstances within more affluent areas. In this case, it is essential that the need for support is clearly explained.

For groups of children with disabilities, they are able to be more flexible regarding the level of deprivation, although they still do take it into account as one factor in our overall assessment.

They award grants of between £500 and £2,500 only.

They are able to fund a maximum of two-thirds of the total cost of a holiday or trip as they expect some of the funding to be raised elsewhere. Please note that if they are able to make a grant towards your organisation, they may not be able to award you the full amount requested.

**Rank Foundation**  

The Rank Foundation continues to run a small grants programme for unsolicited appeals. This is a small funding stream for registered charities and recognised churches which are raising money for projects which are costed at under £1 million. If you are raising money for a particular project for which the mainstay is capital costs (building work, refurbishment or the purchase of long-term equipment) or a one-off short term activity (such as an annual respite break or holiday for disadvantaged young people) and have already raised a third of the total costs, you may be eligible for this.

**Variety**  
[https://www.variety.org.uk/](https://www.variety.org.uk/)

Variety awards grants to cover:

- Sunshine Coaches
- Wheelchairs
- Great Days Out
- Childrens Hospital Grants
- Equipment Grants
- Youth Club Grants
- Childrens Playgrounds

Grants are available to individuals as well as organisations.

**Ernest Cook Trust**  

As well as offering a wide-ranging programme of land-based learning for children and young people, the Ernest Cook Trust gives grants to registered charities, schools and not-for-profit organisations wishing to encourage young people’s interest either in the countryside and the environment, the arts (in the broadest sense), or in science, or aiming to raise levels of literacy and numeracy.

Since the ECT is a land-based Trust, work which encourages or ensures the continuation of rural skills and crafts is of particular interest to the Trustees. All applications are expected to link in with either the National Curriculum or with recognised qualifications.
A large grants programme for awards of over £4,000 and a small grants programme for awards of under £4,000 operate throughout the year.

**Comic Relief**
http://www.comicrelief.com/our-grants/uk/what-we-fund

They allocate funding under four programme areas:

- Investing in children and young people to be ready for the future.
- Empowering women and girls so they’re safe and free to lead the lives they choose.
- Improving health and wellbeing of vulnerable and disadvantaged people.
- Building stronger communities in areas of disadvantage, deprivation and poverty.

**Bernard Sunley Charitable Foundation**
http://www.bernardsunley.org/index.html

The Trustees support capital projects only, not running costs. There is a preference to support projects related to the fabric of a building, rather than small, non-durable items subject to wear and tear such as furniture, appliances, musical instruments and tablets/laptops. Projects with a total budget of under £3,000 should not apply. In cases where grants are made, the projects are expected to be self-financing thereafter.

There are three levels of grant:
- Small – £1,000 to £5,000
- Medium – £5,001 to £24,999
- Large – £25,000 or more

Applicants may suggest a preference for any level of grant, but this has no influence on the amount awarded. Grants are normally a small proportion of the project costs or funding shortfall and the majority of grants (roughly 80%) are ‘small’. Large grants are exceptional and are typically awarded to major capital projects. The Foundation will very rarely fund the full costs (or even 50%) of a project or shortfall as it expects to be one of many contributors to a project.
